## More Freedom, More Activity, More Life.

{youtube}U\_ORenz2Tk8{/youtube}

The LifeChoice® Oxygen Concentrator breakthrough offers true mobility and independence 24/7. With the new exclusive, patent pending Sleep Mode technology, Patients can use The LifeChoice® continuously, 24 hours a day 7 days a week 365 days a year.

When the LifeChoice® is put in SLEEP MODE\*, the sensitivity to detect breathing is increased 10 times, this ensures the LifeChoice® can detect nighttime breathing and still supply the Patient with the necessary oxygen therapy.

The whole unit weighs less than 5 pounds and is held within a small EZ side carry bag which is similar to the size and look of a camera bag:

- A true NO CART system
  
- Exclusive SLEEP MODE technology for a TRUE 24/7/365 use.  
(For 24 hours a day, 7 days week, 365 days a year use)
- Smallest fully stationary/portable oxygen concentrator available.
  
- User friendly controls.
  
- Easy to read keypad.
  
- Reliable device with smart design.
  
- EZ carry bag and strap.

- Quiet. And, less than 5 lbs!
- Virtually maintenance free.
- Reimbursable by insurance\*\*.
- Little to no cost for qualified medicare patients.
- Built to last - Three (3) year warranty included (excluding batteries)

The LifeChoice® is a Stationary and Portable Oxygen Concentrator (POC) with a pulse mode system, delivering oxygen equivalent to a continuous flow of 1, 2 and 3 lpm, and is equipped with state of the art SLEEP MODE\* technology. The compact size and light weight (under 5 lbs) make it perfect for maintaining the quality of life all patients seek.

Better Mobility = Better Health

Any doctor will tell you that better mobility equates to a longer, healthier life. No big bulky cylinders or liquid oxygen to lug around. No need for separate portable and stationary machines. And, the LifeChoice® is virtually maintenance free.
